Please Note: This drawing is designed to give an idea of Hanover's Gridloc™ system. Each project and site conditions are unique. An architect, landscape architect, and/or structural engineer should be consulted to develop a specification suited for the specific project. Neither this drawing nor any of the individual product drawings from Hanover® Architectural Products is intended to be a project-specific design. The installation suggestion given in this drawing is only an illustration and not intended to be project-specific. Each application and specification for installation should have the attention of an architect, landscape architect and/or structural engineer. As product use and site conditions are not within our control, Hanover® does not guarantee results from use of such products or other information herein: no warranty, express or implied is given.

**GRIDLOC™ WEIGHT (APPROX. 5.31 LBS)**

Number of weights required is dependent on load bearing calculations provided by engineer.

**HIGH TAB PEDESTAL**

(UTILIZED AT THE PERIMETER TO HELP STABILIZE SYSTEM)

**GRIDLOC™ PEDESTAL**

**MINIMUM 60 PSI INSULATION**
